The Registration Department aims at maximizing registrant's satisfaction and empower the citizens by providing access to information. In keeping tune with this objective, the department embarked upon the Project "STAR" (Simplified and Transparent Administration of Registration) and REGiNET (Registration information Network).

The department has initiated efforts by making the relevant information available on the exclusive website www.tnreginet.net to meet the expectations of the citizens and to make the job of registrants easy and hassle-free with maximum satisfaction.

Issuance of encumbrance certificates, certificate copies of the registered documents, marriage certificates and details of registered societies and chits are the most essential services of the Registration Department to the general public.

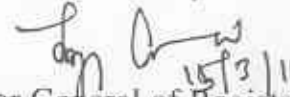

As the Government of India has envisioned the Common Services Centres (CSCs) as the front-end delivery points for rendering all types of government services to rural citizens of the country in an integrated manner, necessary approval has been given to these institutions by the Tamilnadu Government through the Government order 1st cited.

Necessary instructions have been given to these institutions in the Government Order 2nd cited to make their actions in such a way that the services of all the Government departments can easily be reached to the village and rural people.

In the G.O. 3rd cited, orders have been issued to render the registration services like issuance of encumbrance certificates, certificate copies of the registered documents, marriage certificates through People's Computer Centre for the benefit of public of rural and urban areas.

In pursuance, it is hereby instructed that this departmental services mentioned in the Government Order be rendered to the rural and village people in a good gesture and without any complaints, at a nominal charge of not more than Rs.20/- per service/ application.

Yours sincerely,

for Inspector General of Registration.
